Create a Concept Map for your topic

Write your topic and circle the keywords or keyword phrases.

Topic: ___________________________________________________________________________________________________

Write your main keyword in the middle circle and other keywords in at least two other circles. This will help you see connections between ideas and think of different keywords to use.

List subjects that relate to your topic and keywords. For example: Medicine/health, business, education, etc. Identifying potential subject areas will help you decide where to search for information.

___________
